

April is “National Volunteer Appreciation Month”!

We would like our outstanding volunteers at the Norwich Public Library to know we appreciate them not only in April, but in *every month* of the year!

Our volunteers make a difference! They help make it possible for NPL to serve over 3,100 patrons throughout the year—almost the entire population of Norwich. They are loyal and dedicated, rendering over 2,000 hours every year in a variety of essential services.

A special heartfelt “thank you” to the Friends of the Norwich Public Library, a separate, but loyal organization of volunteers which not only provides services to the library, but also raises funds to benefit the library. We could not do all that we do without the Friends’ generous support and dedication.

The trustees and staff deeply appreciate our corps of capable and loyal volunteers who are committed to supporting and enriching their community library. We thank each of our forty volunteers for every hour of service during the month of April, and in *every month throughout the year*.
